Career Ambitions

I would like to work in a challenging and rewarding software development or system administration environment where I can learn from other highly skilled people.

I would also like to continue to earn relevant industry certifications.

Employment History

June 2010 — March 2011	**Student, Master of Information Technology (withdrawn)** University of Melbourne, Parkville, Australia • Learned Java, Python, and Haskell • Revised Algorithms and Networking • Received High Distinctions (H1) in all subjects
2007— May 2010	**Linux Systems Administrator/Systems Engineer** Aconex, Melbourne, Australia • Administration of Java-based Web application • Administration of Linux and Windows production servers • System monitoring and alerting • Automation of Windows and Linux builds • Development of in-house tools • On-call support
2003— 2007	**Systems Administrator/Software Developer** Leigh Mardon Australasia, Highett, Australia • Development of UNIX server and Windows client software in C++ • Development of license capture Web site in PHP • Porting of legacy license processing system to Linux • Administration of AIX, HP-UX, Linux and Windows servers • Telephone support and staff training
2000— 2003	**Trainee Software Engineer/Systems Administrator** Adacel Technologies, Wodonga, Australia • Development of FailSafe network diagnostics in Perl on UNIX • Maintenance of SGI FAM file monitor in C++ on IRIX and Linux • Administration of Red Hat Linux servers
2000	**Systems Engineer/Network Designer** Celvin Technologies, Bairnsdale, Australia • Planning and rollout of 13 site ISDN WAN • Installation and maintenance of Windows servers • On-site technical support and user training

Recent Qualifications

2011   [Red Hat Certified Engineer (RHCE)](#)

2011   [Cisco Certified Entry Networking Technician (CCENT)](#)

2010—   [Postgraduate Certificate of Information Technology](#)
2011   University of Melbourne

2004—   [Bachelor of Computer Science](#)
2007   Monash University

Skills

- Linux (Red Hat, Debian, etc.)
- Unix (AIX, FreeBSD, HP-UX, IRIX, Solaris, etc.)
- Windows (95, NT, 2000, XP, 2003, Vista, 2008, etc.)
- Scripting (Bash, KornShell, Perl, Python, etc.)
- Services (Apache HTTP, DNS, FTP, NFS, MySQL, SSH, etc.)
- Programming (C, C++, Java, etc.)
- Networking (TCP/IP, firewalls)
- Web (HTML, CSS, PHP, JavaScript, etc.)

Awards

- Perfect score, UNIX Tools, Monash University
- Perfect score, Red Hat Certified Engineer
